CAPABILITY STATEMENT

Cybersecurity Consulting

Security Operations · Engineering · Governance

Company Overview

EuME Solutions is a cybersecurity consulting firm that helps organizations strengthen their security posture through practical, risk-informed solutions. We combine hands-on technical expertise with operational insight and governance experience. Our vendor-independent approach helps organizations assess, integrate, optimize, and operationalize the security technologies and processes they already have, around their infrastructure, business objectives, and risk priorities.

Core Competencies

Security Operations Consulting

Alert triage, threat investigation, escalation procedures, and operational workflows. SIEM operations and centralized log aggregation that improve visibility and detection-to-response.

Incident Response & Threat Analysis

Incident readiness and response planning, playbook development, investigation and containment coordination, recovery, and post-incident improvement.

Security Engineering

SIEM integration, log management, and telemetry pipelines; endpoint detection and response, network security, and vulnerability management; configuration, optimization, and automation.

Security Operations Enablement

Analyst training, knowledge transfer, operational documentation, standard operating procedures, investigation playbooks, and escalation workflows.

Security Governance, Risk & Compliance

Security policies, standards, and procedures; risk assessment; control mapping to recognized frameworks; data loss prevention, insider-risk management, and privileged access governance.

Technology Experience

SIEM & LOG MANAGEMENT
IBM QRadar, Palo Alto XSIAM, Google Chronicle, ReliaQuest GreyMatter, Bindplane, NXLog

EDR / XDR
SentinelOne, Cortex XDR, McAfee MVISION

UNIFIED ENDPOINT MANAGEMENT
Automox, Jamf, Ivanti

VULNERABILITY & NETWORK SECURITY
Rapid7 Nexpose, ExtraHop, Guardicore, Palo Alto Networks

EMAIL & DATA PROTECTION
Proofpoint, Tessian, Google Workspace, Code42 Incydr

IDENTITY & PRIVILEGED ACCESS
Delinea Secret Server, HashiCorp Vault, Okta, Microsoft security technologies

Frameworks & Standards

NIST · ISO 27001 · HIPAA · PCI DSS

Differentiators

- **Hands-on practitioner experience**
  Nearly two decades across IT and information security operations, engineering, and governance.
- **Vendor-independent**
  Solutions that fit the environment, not a prescribed product stack.
- **Practical, right-sized guidance**
  Clear, actionable recommendations aligned with operational needs.
- **Built to last**
  Knowledge transfer and documentation so improvements are sustained.

Technology names are examples of professional experience—not an exhaustive list, a claim of vendor partnership, or a statement that EuME Solutions resells or endorses any platform. All trademarks belong to their respective owners.
